Lone-Actor Terrorism Jacob C. Holzer, Andrea J. Dew, Patricia R. Recupero, Paul Gill, 2022 Contemporary lone-actor terrorism is a complex, multi-dimensional process, involving different contexts, ideologies, geographic regions, circumstances, drives, individuals, and modes of violence. Despite the complexity behind a violent incident, the outcome unfortunately is quite simple - harm and devastation to victims, families, and society. The purpose of this book is to explore lone-actor terrorism from different but complementary vantage points. One important focus is on the variability of clinical and forensic mental health concerns. In addition, this book explores other aspects of lone-actor terrorism, including law enforcement and homeland security, risk and threat assessment, geography, ethical considerations, and legal issues. Lone-actor terrorism does not happen in a vacuum. In the context of a given set of conditions, stressors, and rhetoric, many people will think about acting in some form of opposition, vocalize their disagreement or outrage, protest, and vote, in order to effect change. A very small number of individuals, however, think they have to 'take matters in their own hands' and act violently in order to effect change--

Making Way in Corpus-based Interpreting Studies Mariachiara Russo, Claudio Bendazzoli, Bart Defrancq, 2017-10-24 This book presents a collection of state-of-the-art work in corpus-based interpreting studies, highlighting international research on the properties of interpreted speech, based on naturalistic interpreting data. Interpreting research has long been hampered by the lack of naturalistic data that would allow researchers to make empirically valid generalizations about interpreting. The researchers who present their work here have played a pioneering role in the compilation of interpreting data and in the exploitation of that data. The collection focuses on both of these aspects, including a detailed overview of interpreting corpora, a collective paper on the way forward in corpus compilation and several studies on interpreted speech in diverse language pairs and interpreter-mediated settings, based on existing corpora.

The Broken Mirror Jonathan Coe, 2017-11-02 Can desire really transform reality? From award-winning novelist Jonathan Coe and distinguished Italian artist Chiara Coccoresse comes The Broken Mirror, a political parable for children, a contemporary fairy tale for adults, and a fable for all ages. One day Claire, to escape her quarrelsome parents, takes refuge in the dump behind her house. There she finds a broken mirror, a nasty piece of sharp glass... yet she is strangely drawn to it. She soon discovers it has the power to transform even the most drab reality into a fairy-tale world: the grey sky is reflected blue, and Claire's modest, suburban house is transformed into the most beautiful castle. As Claire grows older, always accompanied by her magic mirror, she can see her face without her teenage acne, and her town before it fell victim to thieving property developers. But, in reality, libraries are being turned into luxury flats wherever she looks, and the boy Claire loves is instead her worst enemy. Frustrated and angry with the mirror's illusions, Claire is about to destroy it when the mysterious Peter steps in: he has also found a shard of broken mirror, and so begins their journey to piece together the larger puzzle... Previously published in Italian, French, Greek and Dutch, The Broken Mirror comes to life in English for the first time, to be read with equal pleasure by children and adults.

The linguistic integration of adult migrants: from one country to another, from one language to another Council of Europe, 2014-01-01 The linguistic integration of migrants affects every aspect of settling in a new country (employment, health, etc.). The aim of this collection of texts is to propose a number of specific measures member states can take to help adult migrants become acquainted with the language of the host country. The main focus is on organising language courses that meet migrants' real communication needs. It is not enough for authorities simply to consider the technical aspects of such courses, they should also design and conduct them in accordance with the fundamental values of the Council of Europe. A number of issues concerning the linguistic integration of adult migrants are presented here, beginning with the notion of

linguistic integration itself. Family reunion, the nature of citizenship and the function of language tests, among others, are dealt with from the point of view of language and language use. Readers are invited to reflect on the type of language competences that need to be acquired as well as an appropriate use of the Common European Framework of Reference for Languages. The collection also sets out approaches and instruments designed to assist in implementing effective policies.

Strategic Learning: A Holistic Approach To Studying Robert K Kamei, 2021-07-21 'Dr Bob was our pediatrician. If we could trust him with our kids, you can trust him with how to learn better. I discovered many surprising truths about learning in this book, so follow the scientific research and become a better learner.' Guy Kawasaki Bestselling book author, chief

evangelist of Canva and creator of the 'Remarkable People' podcast Most 'how to learn' books focus only on study techniques. However, knowing these study techniques doesn't guarantee they will be successfully implemented. Based on Professor Kamei's popular undergraduate course at the National University of Singapore, the author shares his unique perspective as an educator and physician to provide a strategic approach to learning that will benefit all students looking to optimize their learning. His extensive experience with helping students with their studies has identified a wide variety of reasons why they were not learning properly. What throws many learners off is that they hold certain myths that result in poor study habits. Learners who understand the truth behind these myths can use this knowledge to better plan their study and have an advantage over others that don't. Furthermore, modifying your study methods won't make much difference if you are too sleepy to learn or lack the motivation and self-discipline to pick up a book. These foundational aspects of learning also need to be solidly in place. This book takes learners through the author's holistic method to help students learn better and meet whatever learning challenges they face. Learners of all ages who wish to optimize their learning will benefit from this book, as well as educators seeking an approach to help their students learn better. Related Link(s)

Mass Higher Education Development in East Asia Jung Cheol Shin, Gerard A. Postiglione, Futao Huang, 2015-02-16
This book discusses mass higher education development in East Asian countries by means of three main issues: the strategy for higher education development; the way professors and students in the region are experiencing the rapid developments; and the challenges imposed by mass higher education. These challenges include the quality of education as well as structural changes in the rapidly developing systems, funding sources for supporting mass higher education, and job markets for college graduates. Part I discusses how the East Asian countries have accomplished or are in the process of accomplishing the rapid development of higher education. Japan, Korea, China, Taiwan, Malaysia, Singapore, and Hong Kong serve as case studies of mass higher education in the region. The case studies introduce and discuss national strategies to develop higher education, funding sources and mechanisms, and initiatives to assure quality of education in a period of rapid growth. Part II and Part III of the book focus on the phenomena of mass higher education in the region and the influence on academia. Mass higher education changes professors and students, who are different from those in elite higher education. Part III further discusses the challenges posed to Asian mass higher education. The Comparative and International Education Society Higher Education (HESIG) has awarded Mass Higher Education Development in East Asia the Higher Education SIG Best Book Award 2015.
